# Model:TS-34

Compact Thermal Fogging Machine

## Features

- Short length compared to other thermal foggers, makes navigating narrow or cramped indoor spaces easier.
- Cleaner emissions than other thermal foggers, improves user experience in poorly-ventilated indoor spaces.
- Stainless steel fog tube, fuel tank, and solution tank.

## Applications

- Designed for use in enclosed settings like living rooms, hotels, warehouses, theaters, and stadiums. Used for space treatment by insecticides against adult mosquitoes and other flying and crawling insects. Used in public health protection and other vector control.

## Technical Specifications

Weight, empty	6.8 kg
Dimensions L x W x H	80cm x 26cm x 32cm
Solution tank capacity	5L
Fuel tank capacity	1.5L
Fuel consumption	1.1 L/h
Performance of combustion chamber	18.6KW / 25.2HP
Maximum flow rate	25 L/h
Power supply	4 x 1.5 V
