Can be use on the following areas: Warehouses, factories, food processing plants, greenhouses, parks, camp-grounds, cattle barns, swine/poultry house, grain mills, shopping centers, schools, restaurants, apartments complexes, hotels, etc.

TECHNICAL SPECIFICATION

Weight, empty in kg, approx	7.9	Fuel consumption in l/h, approx.	1.5
Dimensions in mm (L x W x H)	1440x270x315	Performance of combustion chamber in kw/hp	18.6/25.2
Weight, empty in kg, approx. (Shipping data)	11.6	Flow rate with oil l/h, approx	8-44 (according to nozzle's diameter)
Dimension in mm (L x W x H)	1288x310x360	Energy	4x1.5 V batteries
Solution tank capacity in l	5	Pressure in the solution tank in bar, approx.	0.25
Fuel tank capacity in l	1.5	Pressure in the oil tank in bar, approx.	0.06
