packaging

Strength of Chlorpyrifos

FORTRESS 48TC

PRE-CONSTRUCTION APPLICATION

Areas to be covered by floors, porches, entrance platforms, etc. Before the concrete slab is poured, treat the soil or unwashed gravel at 4 liters per square meter. For soil along inside of foundation walls, both sides of partition walls and around plumbing, use 5 liters per linear meter. From the grade to the footing along the outside edge of the building, apply 5 liters per 30 cm depth.

Crawl spaces. Apply at the rate of 5 liters per linear meter per 30 cm of depth from grade to bottom foundation. Method of application is by rodding and trenching. For inaccessible spaces, treat soil by drilling and rodding through foundation walls from the outside.

Hollow blocks foundations. Apply at a rate of 2.5 liters per linear meter of wall by drilling or probing.

POST-CONSTRUCTION APPLICATION

Concrete slab foundations. Apply at rate of 5 liters per linear meter along the outer edge of the foundation, under the slab, and all the cracks and expansion joints. Application methods maybe through sub-slab injection by drilling holes in the slab or through foundation walls from outside. Inject the emulsion through the holes and along cracks and expansion joints. For shallow (less than 30 cm) foundation walls, apply the emulsion by trenching.

Basements. Use at a rate of 5 liters per linear meter trenching outside foundation walls and by rodding underneath basement floor, along the inside of the foundation walls, along cracks, around sewer pipes, conduits and piers.

Hollow block foundation. Apply at a rate of 2.5 liters per linear meter of wall by drilling or probing.

PRECAUTIONS

Re-Entry Period: Do not enter the building within 24 hours after spraying.

Storage and Disposal: Store in original container, tightly closed. Storage should be under lock and key in a ventilated room and secure from access by unauthorized person and children. Do not contaminate water, food or feed by storage and disposal.

Prohibition/Warranty Statement: It is a violation to use this product in a manner inconsistent with its label. No warranty of any kind, express or implied is made concerning the use of this product. The consumer assumes all risks and liabilities resulting from handling, use or application of the product.
