

INSTANT KNOCKDOWN OF DDVP

Novicide

NOVIM^{25 EC}

EFFECTIVE
against all pests

DDVP or Dimethyl Dichloro-Vinyl Phosphate (Dichlorvos) is an insecticide with strong & instant effect against all flying and crawling public/household pests such as cockroaches, flies, mosquitoes, ants, mites & others.

- Novim is best for flushing out pests
- Novim has high knockdown effect

HOW NOVIM WORKS

DDVP is a organophosphate insecticide and the target site of action is the nervous system. When exposed to NOVIM insects experience hyper excitation and tremors in its nerves, as a result of cholineesterase inhibition which eventually causes paralysis and death.

FDA
Registered

A complete solution
for all types of household pests
